

**CARBON 4
SOIL QUALITY**

CARBON 4 SOIL QUALITY FINAL CONFERENCE

Carbon Farming: Benefits in the Mediterranean region

More information

Invitation

Dear colleague,

We are pleased to invite you to attend the **[“Carbon Farming” Conference](#)**, a premier event dedicated to exploring the future of sustainable agriculture through carbon farming.

The conference will take place on **December, 10, 2025 in Thessaloniki, Greece** and will be hosted by [Aristotle University Research Dissemination Center](#). Online participation will also be possible.

Organized within the framework of the project [“Capturing and Storing Atmospheric CO₂ for Improvement of Soil Quality – Carbon 4 Soil Quality”](#) by the Aristotle University of Thessaloniki (AUTH), the conference will feature three focused sessions:

Session 1 – Carbon 4 Soil Quality

Session 2 - Carbon Farming for Climate Action

Session 3 – Policy and Carbon Markets

Thematic areas of the presentations will include, among others:

- Carbon Farming at the Crossroads: Global Potential and Local Impact
- Better understanding of carbon farming benefits for soil quality and CO₂ reduction
- Building solid foundation for testing carbon farming in Euro-MED area
- Sequestering Carbon, Building Resilience: Climate Mitigation and Adaptation through CF
- From Tradition to Innovation: Scalable Carbon Farming Practices in the Euro-MED
- From Soil to Species: Biodiversity Gains through Carbon Farming Practices
- CF as a nature-based solution for climate-smart agriculture
- From Pilot to Policy: Scaling and Mainstreaming Carbon Farming Across the Euro-MED Region
- Soil at the Center: Carbon Farming's Role in the Green Deal and Farm to Fork Strategy
- Carbon Markets: Opportunity or Greenwashing?
- Digital tools for carbon accounting and MRV (Monitoring, Reporting, Verification)

CARBON 4 SOIL QUALITY

This gathering brings together experts, policymakers, farmers, researchers, and key stakeholders from across Europe to share knowledge, strategies, and policy frameworks aimed at implementing and scaling up carbon farming practices.

We believe your expertise and insights would be a valuable contribution to the event, and we sincerely hope you will consider joining us.

This serves as the first announcement of the conference; a detailed programme and additional information will be shared at <https://carbon4soilquality.interreg-euro-med.eu/carbon-4-soil-quality-final-conference/>.

To register, please visit [register](#).

If you have any questions or need further information, please do not hesitate to contact us at [bilas@agro.auth.gr; thalex@agro.auth.gr; lea.mlekus@kis.si].

We look forward to your participation in this important conversation for a climate-resilient future.

Warm regards,

The organizing team
